EMPOWERING CITIZENS FOR CHANGE!

Published in September 2016, as part of the I AM AWARE Citizen Empowerment Project at the Ghana Center for Democratic Development ©CDD-Ghana

Our Bulletins are snapshots of Districts and their performance in sectors I AM AWARE focuses on (Education, Health, Roads, Agriculture, Security, Water And Sanitation). The Bulletins are useful as a dissemination tool. They facilitate the dissemination of information via media channels such as, radio, television and social media. Each Bulletin is produced by ranking proportions of observations of each of these indicators in order to ensure conformity, taking note of variances such as demographics.

ABOUT I AM AWARE

I AM AWARE is a non-partisan citizen empowerment tool. It collects, analyzes, archives and disseminates user-friendly socio economic data on the state of public goods and service delivery in Ghana. It aims to empower ordinary citizens, particularly the poor and vulnerable, to improve their awareness and engagement with duty-bearers in order to make them more accountable and responsive.

I AM AWARE does this by providing citizens and the media free, accessible and user-friendly information on the state of public goods and service delivery in their respective districts/constituencies in order to strengthen the demand for political accountability in Ghana.

Armed with this handy information on the state of public service delivery in their respective districts/constituencies, citizens and the media are able to assess and evaluate the degree to which duty bearers are fulfilling their obligations to them.

I AM AWARE has a data facility center that helps assemble, archive, and disseminate information on the state of socioeconomic and political development at the district level. The facility is open to the public and is free to use.

The first phase of **I AM AWARE** ended May 2013. The second phase began November 2013 and will end December 2017.

I AM AWARE is sponsored by the **William and Flora Hewlett Foundation in the USA**
